

THE NIHILISTS

Send a Ghastly Present to Prince Dolgoroukoff.

It Contained the Head of a Russian Woman

Who Was Probably Slain for Betraying Them—Various Newspaper Correspondents and Others Investigating the Methods of the Russian Government for Suppressing Facts About Siberia.

Moscow, March 8.—A ghastly tragedy has come to light in this city. A parcel was left at the residence of Prince Dolgoroukoff which upon examination was found to contain the head of a woman. With the parcel was left a note, bearing no signature, saying: "This is our first exploit. We will soon outdo 'Jack the Ripper.' It is believed that the woman was killed for betraying Nihilists.

SUPPRESSING FACTS.

How the Russian Government Creates Favorable Impressions.

LONDON, March 8.—The recent outrages committed by the Russian officials in Siberia upon helpless male and female prisoners have led to inquiry on the part of various correspondents and others into some of the methods employed by the Russian government to the end of suppressing facts and creating favorable impressions, with the result of ascertaining that a vast number of persons of the higher classes are engaged in the work of representing the Russian empire as a veritable paradise and the czar as an angel of mercy.

The articles written by George Kennan and published in The Century, depicting the horrors of the Russian prison system, obtained a wide circulation in Russia until the censors succeeded in preventing copies of the magazine containing the articles from passing through the post-offices, but the seed had been sown and the government found it necessary to take steps to destroy the crop, and at the same time render the effects of the articles in America as nearly as possible nugatory. With this object in view the government lately sent to the United States fifty spies, or agents, thirty-five women and fifteen men, charged with the duty of endeavoring to modify the impression made by the articles on the American people, and also to secure the passage of an extradition treaty looking to the return to Russia of fugitive political offenders. These emissaries are under assumed names, and are known only to the secret police at St. Petersburg.

They are well supplied with money and are instructed to hold no open communication with one another. The ostensible object of their visit to America is to lecture on Russian subjects, which discourses will be supplemented by the publication of articles in the various newspapers laudatory of the czar and his government.

Ten of the fifty are directed to Washington to ingratiate themselves with both houses of congress, and to ultimately gain entrance into the best American society.

Already three of these emissaries have arrived in America, two ladies of high birth and one gentleman of equally high social position, an officer in the Russian army. One of the ladies is delivering lectures and giving readings on Russia in the western states, and the other is similarly engaged in the southern states, while the gentleman is sojourning in Washington cultivating desirable acquaintances, writing occasional newspaper articles pertinent to his mission and taking a general survey of the field pending the arrival of his colleagues.

GOBBLED BY THE STANDARD.

The Indianapolis Natural Gas Franchise. Kokomo Not In It.

INDIANAPOLIS, Ind., March 8.—The rumor was current Thursday that the New York purchasers of the natural and illuminating gas plants of this city are simply the agents of the Standard Oil company, and that the latter, after trying for three years to get a foothold in Indianapolis, have at last succeeded, and now have something over \$2,000,000 invested in the two plants. The company owns a large amount of natural gas territory, and was one of the first to seek to introduce gas for fuel into this city. It is understood that the new owners will make many improvements, and will increase the capacity and number of lines from the gas territory to this city.

Kokomo Not in the Deal.

KOKOMO, Ind., March 8.—The gas plant here, which is one of the best in Indiana, is owned and operated by capitalists of this city, who have no intention of joining their fortunes with operatives in either New York or Chicago.

Three Children Burned to Death.

PARRY SOUND, Ont., March 8.—The house of William Robinson was destroyed by fire early Thursday morning and three of his children were burned to death. They were Benjamin, aged 18, Lynda, aged 16; and Ida, aged 5. The rest of the family escaped by jumping from the windows.

Indians Starving—Cannibalism.

WINNIPEG, Man., March 8.—Alex Kennedy, who has arrived from Dunvegan, states that the Indians around that place are starving and that many deaths have occurred from this cause. It is also reported that cannibalism has been resorted to by the famished natives.

Michigan's "Black Bart."

MARQUETTE, Mich., March 8.—Raimund Holzap, the notorious train robber, now in the penitentiary here for life, tried to murder a fellow-convict Thursday morning, and was shot and seriously wounded by the warden. All the fingers of his right hand were shot off.

Captain Samuel B. Washburn Dead.

NEW YORK, March 8.—Capt. Samuel B. Washburn, of the famous Washburn family, of Maine and Minneapolis, died at the sanitarium in Avon, N. Y., on Wednesday.

TO HANG MAY 3.

Green, the Murderer of His Sweetheart in Putnam County, Tennessee. NASHVILLE, Tenn., March 8.—The supreme court Thursday imposed sentence of death upon John W. Green, of Putnam county, for the murder of Miss Ova Davis, a young and beautiful girl, daughter of Capt. William G. Davis, of the same county. The execution is fixed for May 3.

Green's Crime.

The history of the crime contains elements which go to make up a sensational affair.

John Whitley Green, Thomas C. Cameron and James Parks, all young men residing in the neighborhood of Capt. Davis' residence, were paying attention to Miss Davis, and, as was afterward brought out, she and young Parks were soon to be married. Green's attentions were received with indifference, whereupon he became frenzied by jealousy, and determined to kill the young lady. On the 18th of June, 1887, Green went to Capt. Davis' home with the intention, it is supposed, of killing Miss Davis. Capt. Davis and his wife were absent from home that day.

Green found Miss Davis, on his arrival there, engaged in ironing clothes in the hallway, whereupon he shot her down and then attempted to take his own life by shooting himself three times in the back of the head. The bullet struck Miss Davis on the side of the head and passed through the skull. Green made confession, in which he said he and Miss Davis had been engaged to marry, and had made an agreement that if either broke the engagement the one breaking it should be shot by the other. He said he had heard that she would be married to some one else on a certain Sunday.

After hearing this, he said, he met her in the road and she asked why he had ceased to come to see her. A few days after this Green said he called upon Miss Davis and it was agreed that both should die; that he tied a handkerchief over his eyes and told her to shoot him. She would not do it; and he then tied a handkerchief over her eyes, but could not shoot her. He said that after this he made up his mind to kill her at church, as well as to shoot Parks and Cameron.

On the day of the killing he heard that Capt. and Mrs. Davis were not at home, and he went at once to their house and told Miss Davis that he had come to kill her. She fell on her knees, began crying and threw up her hands. It was then that he shot her. She fell and he examined the wound in her head, after which he placed the pistol to the back of his own head and fired twice. The second shot knocked him down. He then snatched the pistol several times, after which he reloaded it and shot himself in the same place.

LIMA OIL ADVANCES.

The Standard Thought to Have Discovered a Method of Refining It.

LIMA, O., March 8.—The Buckeye Pipe Line company created a great stir in oil circles Thursday morning by posting an announcement that hereafter the price of Lima oil would be twenty cents a barrel, which is an advance of five cents per barrel. It is the general opinion that this is but a forerunner of what is to come, and that Lima oil will be gradually advanced to fifty cents per barrel, which is about its true value as a commodity.

The advance is of great importance to this city and community, as it means the influx of new blood and an increase in the money spent by the producer. There will now be an immense amount of hustling done to obtain territory which has not been developed.

The reason for the advance is generally understood to be that the Standard company have finally discovered a method of refining the oil, and that hereafter none of it will be sold for fuel oil. It is thought this move means the equalization of prices with the eastern production, and the making of the Lima product a certificate oil.

BUT LITTLE HOPE FOR HARPER.

The Bank Wrecker Likely to Serve Out His Sentence.

WASHINGTON, March 8.—One of the dispatches announcing that the board of managers of the Ohio penitentiary have recommended the pardon of E. L. Harper, the wrecker of the Fidelity National bank of Cincinnati, says: "Among those who are thoroughly informed as to Harper's prison life, and the causes that have led the board to make the recommendation, it is believed President Harrison will grant an unconditional pardon at an early day." Attorney General Miller was shown this dispatch Thursday, and said: "I have heard nothing on the subject of Harper's pardon recently. An application for his release was made some time ago, and after full consideration of all the arguments advanced in his behalf this department could not recommend Harper's pardon, and the president so decided. I am not, of course, authorized to speak for the president, but so far as the department of justice is concerned nothing has been brought to my attention recently to change the opinion already expressed, that Harper should not be pardoned."

DIG FIRE AT ANDERSON, IND.

Largest Wire, Rod and Nail Mill in the United States Destroyed.

ANDERSON, Ind., March 8.—The American wire, rod and nail mills of this city were burned at 9 o'clock Thursday night. The institution was the largest of the kind in the United States, and the loss will reach \$100,000, partly insured. About 300 men are thrown out of employment.

Cutting Ice on Sandusky Bay.

SANDUSKY, O., March 8.—For the first time this winter the lake is frozen over between here and Put-in-Bay, a distance of twenty-two miles. Ice is almost three inches thick and solid the entire distance. One thousand men began cutting five-inch ice on Sandusky bay Thursday.

Gold in South Dakota.

SIOUX FALLS, S. Dak., March 8.—Gold has been discovered in a gravel bank just east of this city and the find has occasioned much excitement, as the samples that have been assayed leave no doubt as to its quality. The discovery was purely accidental, but will not be developed until the extent of the deposit is known.
